DETAILED ACTION

Allowable Subject Matter

1. Claims 2-7, 9-16, 19-23, 25 and 26 are allowed over the prior art of record in light of the amendments submitted 08/18/2010.
2. The following is an examiner's statement of reasons for allowance:
3. The prior art fails to either show or reasonably suggest the claimed process of manufacturing a decorative board with multiple camera guided alignment and machining steps with the claimed types of cameras.
4. The closest prior art of record is Giertz, which discloses the general board construction, but Giertz does not disclose the use of camera guided machining and moreover a does not disclose a process which utilizes camera guiding machining steps at different points of the production process. Tyhsen is the closest prior art in terms providing guidance towards camera guided machining, but the currently claimed method entails more complex differences than merely integrating with Giertz a camera guided machining tool. In light of the fact that the claimed method utilizes specific cameras at specific times as well as includes multiple camera guided machining steps it would not have been obvious to have arrived at the present claims absent further guidance or hindsight reasoning.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
